

## Why Galaxy?

Working on educational service is different from any other service industries. Especially Qatar has different educational systems from many countries. Finding suitable educational tools is difficult for students with different syllabuses. Galaxy library With years of experience achieved good knowledge about Qatar's educational systems and provides students requirements in every stages of study. We made strong relationship with schools and teachers to provide the best service. Many teachers now recommends the Galaxy library.

Other than educational services literature lovers chooses our store to find their taste. This range varies from world classics to Islamic literature. Tie up with publishers and distributors helps us to update our collection

## Digital learning

The newest student generation, is growing up surrounded by digital media and technologies. For them, the ability to access information and communication technologies (ICT) are increasingly important to effectively participate in their study. Technology is also changing the life of schools—it plays an increasingly important role in teaching and learning. New technologies can extend learning to spaces beyond classrooms.

Galaxy Library clearly understands the student requirements and provides digital technology. It varies from software to digital text book. Our future concept stores will be fully equipped with laptops, tabs and other modern technology tools.

## Company Profile

Bookstores and libraries plays a central role in fostering a deeper appreciation of knowledge and in lifelong learning. Increasingly, book stores are also filling another critical need in our communities, by providing a heaven for those seeking knowledge in an ever-more isolated world.

Galaxy library established in 2008 to serve educational and professionals. Now galaxy library is expanded to 5 stores in different areas of the country with unmatched service. We purchase many of our products directly from manufacturing countries like china, Germany and Indonesia. We imports high quality papers from Germany and distributes to the major shops. Now Galaxy Library is 40+ employee company including translators, market researchers, sales executives etc.

Inspired from our success and experience, we are stepping to malls from the local market. We created a separate administration for branding and to make unique experience for our customers.
